Will a 100 MW solar plant be built in Botswana?

State-owned Botswana Power Corp. has signed a power purchase agreement with a consortium of Chinese enterprises and other companies to construct a 100 MW solar plant in southern Botswana. The project is expected to start generation by the end of 2025.

When will Mmadinare solar cluster be completed in Botswana?

Renewable-energy company Scatec has achieved the successful commercial operation of the first 50 MW phase of the 100 MW Mmadinare Solar Cluster in Botswana, which was developed in partnership with Botswana Power Corporation (BPC). The remaining part of the project is currently under construction and is expected to be completed in early 2026.

When will Botswana's second solar power plant be completed?

The project which is Botswana's second utility-scale solar facility is set to be completed in the second quarter of 2026. Botswana has awarded a major contract to build a 100-megawatt solar power plant to a group of Chinese companies led by China Harbour Engineering Co.

How much does Botswana's solar project cost?

The project is a key development in Botswana's renewable energy sector, marking the country's second utility-scale solar facility. The contract which is valued at \$78.3 million includes partnerships with China Water and Electric Development Co. and local investors.

Where is Scatec ASA building a solar power plant in Botswana?

In March, Scatec ASA began construction of a 100-megawatt solar power plant in Botswana's northeast. The initial 60 megawatts of this project are expected to come online by the end of this year. The Ministry of Minerals and Energy is also working on additional renewable energy projects.

How will Scatec power plant work in Botswana?

The power plant is Scatec's first in Botswana and will generate predictable revenues from a 25-year power purchase agreement (PPA) with Botswana Power Corporation, the national utility. The remaining 60 MW of the project is currently under construction and is expected to be completed in the beginning of 2026.
