

Jul 3, 2024 The integration of variable wind power faces additional challenges with the increasing global emphasis on renewable energy integration. Energy storage systems (ESSs) ?

Apr 18, 2018 An integrated wind, solar, and energy storage (IWSES) plant has a far better generation profile than standalone wind or solar plants. It results in better use of the ?

Sep 30, 2025 To address this, we develop a medium-long-term complementary dispatch model incorporating short-term power balance for an integrated hydro-wind-solar-storage system. ?

Apr 28, 2025 To mitigate climate change and reduce greenhouse gas emissions, the decarbonization of the power system is crucial. Utilizing renewable energy for power ?

Jul 22, 2025 This study proposes an optimized day-ahead economic dispatch framework for wind-integrated microgrids, combining energy storage systems with a hybrid demand ?

Jan 18, 2021 In this paper, based on the operation cost of the wind-storage combined system, (CVaR) method is used to deal with the possible ?

Sep 2, 2024 In this paper, a two-stage robust optimization approach is employed to address the variability in renewable energy output by ?

Sep 1, 2024 The conclusion proves that the multi-time scale sustainable scheduling strategy considering the joint participation of high-energy load and energy storage in wind power ?

Feb 2, 2025 Multi-Time-Scale Optimal Scheduling of Integrated Energy System with Electric-Thermal-Hydrogen Hybrid Energy Storage Under Wind and Solar Uncertainties

Mar 19, 2024 This article fully explores the differences and complementarities of various types of wind-solar-hydro-thermal-storage power sources, a hierarchical environmental and economic ?

Jul 22, 2025 This study proposes an optimized day-ahead economic dispatch framework for wind-integrated microgrids, combining energy ?

---

6 days ago To achieve the coordinated optimization of economic and low-carbon objectives in integrated energy systems, this study develops a synergistic scheduling model combining ?

Mar 19, 2024 This article fully explores the differences and complementarities of various types of wind-solar-hydro-thermal-storage ?

Jul 1, 2022 The optimization model of the integrated energy microgrid is established, which includes biogas-wind-solar energy on the basis of the realization of energy conversion, ?

Oct 1, 2025 The time-varying nature of wind speed and solar radiation introduces significant intermittency and uncertainty to the grid integration of renewable energy. We propose a robust ?

Mar 22, 2024 This paper considers the coordinated dispatch of flexible resources such as pumped storage and hydropower units in traditional power systems and proposes a joint ?
