

Jan 6, 2025 Explore the energy events and exhibitions in the Baltics and Poland that shape energy efficiency, pricing, and the region's sustainable ?

Feb 24, 2025 A solar PV plant in Latvia that Latvenergo deployed via subsidiary Elektrum. Image: Latvenergo. Latvia state-owned utility and power generation firm Latvenergo intends to ?

Nov 30, 2023 This study analyses the economic feasibility of transitioning to decentralized renewable energy solutions, including solar panels and ?

Feb 18, 2025 A growing demand in the energy market for battery energy storage system (BESS) technologies is developing currently, and the trend is expected to remain stable in the future. ?

Feb 7, 2025 On February 8-9, the Baltic States will disconnect from the BRELL electricity grid, which still connects them to the Russian and Belarusian electricity systems, and join the ?

Feb 24, 2025 A solar PV plant in Latvia that Latvenergo deployed via subsidiary Elektrum. Image: Latvenergo. Latvia state-owned utility and ?

Nov 1, 2024 The largest energy storage battery system will provide energy storage to transfer the generated electricity to users when there is a ?

May 27, 2024 The cheapest way to produce energy is at home, so we plan to maximize the potential of wind energy to provide cheaper energy for the Latvian population, inject additional ?

The 2.5MW/4MWh project aims to enhance Latvia's power grid stability through advanced energy storage systems, supporting renewable energy integration and promoting clean energy ?

Germany-based Rolls-Royce has been awarded a contract to supply two large-scale battery energy storage systems to Augstsprieguma tīkls (AST), Latvia's transmission system operator, ?

The largest energy storage battery system will provide energy storage to transfer the generated electricity to users when there is a shortage in the electricity system.

Latvian coal-to-electricity energy storage equipment

Feb 23, 2024 Given the interest of residents in purchasing electricity-producing equipment, the Ministry of Climate and Energy (KEM) has expanded the support program and in the future ?

Feb 20, 2024 The current EU policy dictates that Latvia must increase the share of renewable energy in its final energy consumption and Latvia has plans to reach 50 percent by 2030 ?

Oct 22, 2025 Latvia's 2020 National Renewable Actions Plan targets a 40% share of energy generated from renewable sources in gross final energy consumption, 53% of heat ?

The Ministry of Power has issued the draft tariff-based competitive bidding guidelines to procure stored energy from existing, under-construction, or new Pumped Storage Projects (PSP).. ?

Dec 8, 2010 An energy power deficit and dependence on imported primary energy resources, such as natural gas and coal are typical for Latvian energy sector. In spite of the EU's efforts ?
